# Care Card

Get the best from your flowers

## Welcome to Pinks byPost!

Here are a few suggestions to help you get the best from your flowers:

Cut at least half an inch off the stems and add the enclosed sachet contents to the water as per instructions.

Change water regularly especially in summer.

Keep flowers away from direct sunlight, heaters and fruit.

Every few days, always trim a little off the stem especially if the flowers are tending to wilt.

Anemones need more water than most flowers. If they are a little limp on arrival, put them up to their necks in water for a few hours until they recover.

These flowers do well in a vase that supports the stems up to the flower head.

# Pinks byPost

**OUR PINKS** are grown in the Dawlish area of South Devon, and as a flower they have a wonderful scent and a delicate beauty that will give lasting pleasure to the recipient.

Pinks are produced all year round but during the winter they are in shorter supply, so we offer mixed boxes of Pinks, Freesias and Anemones. They have been so popular that we have continued the mixed boxes into the summer, replacing the Anemones with various other cut flowers.

All orders are carefully packed with their stems wrapped in damp tissue, covered with cling film and sleeved as added protection, with a card containing your personal message.

## Chocolates

Following on in our tradition of supplying Pinks from Devon, we now offer hand made truffles for that Special Occasion. We can include 170 grams of Truffles with the standard and deluxe boxes. The truffles are hand made in Devon by Browne's of Okehampton.

As they say, "The quality of chocolate varies hugely, depending on the use to which it is put and the quality required. Here at Browne's we use a high grade of continental chocolate (or 'couverture', as it is known), for example our dark chocolate contains 71% cocoa solids!"

To place an order, you can either:

- fill in the form on the next page and return to us with your cheque,
- Phone your order through and we can take payment by Credit Card,
- Order and pay on our NEW secure Web Site.

Show someone you care – send them Pinks by Post today!

**Malcolm & Delia Colegate**
